ANNUAL INDEX
VOLUME 66

No. 1	January 1992	1– 48
No. 2	February 1992	49– 96
No. 3	March–April 1992	97–152
No. 4	May 1992	153–192
No. 5	June 1992	193–232
No. 6	July–August 1992	233–280
No. 7	September 1992	281–328
No. 8	October 1992	329–376
No. 9	November–December 1992	377–432

Author Index

Bader JD, Sams DH: Reasons for changing employment positions among practicing North Carolina dental hygienists. *J Dent Hyg* 1992;66:27–33.

Barry RM, Woodall WR, Mahan JM: Postural changes in dental hygienists: Four-year longitudinal study. *J Dent Hyg* 1992;66:147–150.

Bell KM: Report of the executive director. *J Dent Hyg* 1992;66:162, 164, 166.

Boyer EM: Examination services provided by dental hygienists. *J Dent Hyg* 1992;66:354–362.

Boyer EM, Gupta GC: Clinical dental hygienists' perceptions of quality dental hygiene care. *J Dent Hyg* 1992;66:216–219.

Brockmann S: See Gross, 314.

Brown BS: Corticosteroids and the dental patient: A review of the literature. *J Dent Hyg* 1992;66:220–223.

Cirincione UK: The safe use of fluorides in dental hygiene practice. *J Dent Hyg* 1992;66:319–324.

Cline NV, Springstead MC: Monitoring blood pressure: Five minutes critical to quality patient care. *J Dent Hyg* 1992;66:363–368.

Cobb C: See Gross, 314.

Conrad JC, Conrad KJ, Osborn JB: A short-term epidemiological study of median nerve dysfunction in practicing dental hygienists. *J Dent Hyg* 1992;62:76–80.

Conrad KJ: See Conrad JC, 76.

Cross-Poline GN, Passon JC, Tilliss TSI, Stach DJ: The effectiveness of a continuing education course in local anesthesia for dental hygienists. *J Dent Hyg* 1992;66:130–136.

Daniel SJ: See Huennekens, 24.

Garvin C, Sledge SH: Sexual harassment within dental offices in Washington state. *J Dent Hyg* 1992;66:178-184.

Gerwatowski LJ, McFall DB, Stach DJ: Carpal tunnel syndrome: Risk factors and preventive strategies for the dental hygienist. *J Dent Hyg* 1992;66:89–94.

Gross KBW, Overman PR, Cobb C, Brockmann S: Aerosol generation by two ultrasonic scalers and one sonic scaler: A comparative study. *J Dent Hyg* 1992;66:314–318.

Gupta GC: See Boyer, 216.

Huennekens SC, Daniel SJ: Task analysis of the ODU 11/12 explorer. *J Dent Hyg* 1992;66:24–26.

Johnston DW, O'Shea RM, Lewis DW: Career commitment and satisfaction among American and Canadian dental hygienists. *J Dent Hyg* 1992;66:210–215.

Keevil JM: Faculty openings and recruitment in dental hygiene education. *J Dent Hyg* 1992;66:254–258.

Levin-Goldstein D: The local drug delivery of tetracycline, metronidazole, and chlorhexidine in periodontal therapy: A literature review. *J Dent Hyg* 1992;66:410–416.

Lewis DW: See Johnson, 210.

Lichtenstein E: See Little, 185.

Little SJ, Stevens VJ, Severson HH, Lichtenstein E: An effective smokeless tobacco intervention for dental hygiene patients. *J Dent Hyg* 1992;66:185–190.

Lutjen D: See Sisty-LePeau, 137.

Mahan JM: See Barry, 147.

Mauriello SM: See Wassel, 81.

McFall DB: See Gerwatowski, 89.

Newell KJ: Dental hygiene students' and practitioners' resolution of professional issues. *J Dent Hyg* 1992;66:34–41.

Nielsen-Thompson N: See Sisty-LePeau, 137.

Osborn JB: See Conrad, 76.

O'Shea RM: See Johnston, 210.

Ostapenko JE: Employment and utilization of dental hygienists in Minnesota healthcare facilities. *J Dent Hyg* 1992;66:404–409.

Overman PR: See Gross, 314.

Passon JC: See Cross-Poline, 130.

Requa-Clark B: So your patient is taking . . . a calcium channel blocker (CCB)! *J Dent Hyg* 1992;66:369–371.

Sams DH: See Bader JD, 27.

Severson HH: See Little, 185.

Shuman D: See Thomson-Lakey, 417.

Sisty-LePeau N, Nielsen-Thompson N, Lutjen D: Use, need, and desire for pain control procedures by Iowa hygienists. *J Dent Hyg* 1992;66:137–146.

Sledge SH: See Garvin, 178.

Smith BO: A national survey of outcomes assessment in dental hygiene programs. *J Dent Hyg* 1992;66:68–75.

Springstead MC: See Cline NV, 363.

Stach DJ: See Gerwatowski, 89. See also Cross-Poline, 130.

Stevens VJ: See Little, 185.

Summerlin D-J: See Williamson, 264.

Thomson-Lakey EM, Tolle-Watts SL, Shuman D: Dental hygiene recruitment and retention: Marketing to the female adult reentry student. *J Dent Hyg* 1992;66:417–423.

Tilliss TSI: See Cross-Poline, 130.

Tolle-Watts SL: See Thomson-Lakey, 417.

Wassel JR, Mauriello SM, Weintraub JA: Factors influencing the selection of dental hygiene as a profession. *J Dent Hyg* 1992;66:81–88.

Weintraub JA: See Wassel, 81.

Williamson GF, Summerlin D-J: Evaluating oral lesions: A systematic approach with exercises. *J Dent Hyg* 1992;66:264-272.

Woodall WR: See Barry, 147.

Woodward VL: Report of the president. *J Dent Hyg* 1992;66:160, 166.

Zachariasen RD: Periodontal disease and diabetes mellitus. *J Dent Hyg* 1992;66:259–263.

Subject Index

CLINICAL PROCEDURES
Evaluating oral lesions: A systematic approach with exercises. Williamson, et al., 264.
Examination services provided by dental hygienists. Boyer, 354.
The local drug delivery of tetracycline, metronidazole, and chlorhexidine in periodontal therapy: A literature review. Levin-Goldstein, 410.
Use, need, and desire for pain control procedures by Iowa hygienists. Sisty-LePeau, et al., 137.
Chemotherapeutic agents
The local drug delivery of tetracycline, metronidazole, and chlorhexidine in periodontal therapy: A literature review. Levin-Goldstein, 410.
Antimicrobials
The local drug delivery of tetracycline, metronidazole, and chlorhexidine in periodontal therapy: A literature review. Levin-Goldstein, 410.
Data collection/patient assessment
An effective smokeless tobacco intervention for dental hygiene patients. Little, et al., 185.
Evaluating oral lesions: A systematic approach with exercises. Williamson, et al., 264.
Examination services provided by dental hygienists. Boyer, 354.
Monitoring blood pressure: Five minutes critical to quality patient care. Cline, et. al., 363.
So your patient is taking . . . a calcium channel blocker (CCB)! Requa-Clark, 369.
Task analysis of the ODU 11/12 explorer. Huennekens, et al., 24.
Dental hygiene treatment planning
The safe use of fluorides in dental hygiene practice. Cirincione, 319.
Planning treatment and sequence
Evaluating oral lesions: A systematic approach with exercises. Williamson, et al., 264.
Recall and maintenance
The local drug delivery of tetracycline, metronidazole, and chlorhexidine in periodontal therapy: A literature review. Levin-Goldstein, 410.
Pain Control
Use, need, and desire for pain control procedures by Iowa hygienists. Sisty-LePeau, et al., 137.
Analgesia
Use, need, and desire for pain control procedures by Iowa hygienists. Sisty-LePeau, et al., 137.
Local anesthesia
The effectiveness of a continuing education course in local anesthesia for dental hygienists. Cross-Poline, et al., 130.
Use, need, and desire for pain control procedures by Iowa hygienists. Sisty-LePeau, et al., 137.
Patient education
The safe use of fluorides in dental hygiene practice. Cirincione, 319.
Tobacco intervention
An effective smokeless tobacco intervention for dental hygiene patients. Little, et al., 185.
Preventive agents
Fluoride
The safe use of fluorides in dental hygiene practice. Cirincione, 319.
Scaling
Ultrasonics
Aerosol generation by two ultrasonic scalers and one sonic scaler: A comparative study. Gross, et al., 314.
COMPETENCE/QUALITY ASSURANCE
Clinical dental hygienists' perceptions of quality dental hygiene care. Boyer, et al., 216.
Evaluation system
A national survey of outcomes assessment in dental hygiene programs. Smith, 68.
CONTINUING EDUCATION
Attitude toward
The effectiveness of a continuing education course in local anesthesia for dental hygienists. Cross-Poline, et al., 130.
Marketing
The effectiveness of a continuing education course in local anesthesia for dental hygienists. Cross-Poline, et al., 130.
Requirements
The effectiveness of a continuing education course in local anesthesia for dental hygienists. Cross-Poline, et al., 130.
DELIVERY
Clinical dental hygienists' perceptions of quality dental hygiene care. Boyer, et al., 216.
Examination services provided by dental hygienists. Boyer, 354.
General population
Children and adult
Examination services provided by dental hygienists. Boyer, 354.
Geriatric
Employment and utilization of dental hygienists in Minnesota healthcare facilities. Ostapenko, 404.
Special population groups
Hospitalized
Employment and utilization of dental hygienists in Minnesota healthcare facilities. Ostapenko, 404.
Long-term care
Employment and utilization of dental hygienists in Minnesota healthcare facilities. Ostapenko, 404.
Medically compromised
Monitoring blood pressure: Five minutes critical to quality patient care. Cline, et al., 363.
Periodontal disease and diabetes mellitus. Zachariasen, 259.
System
Clinical dental hygienists' perceptions of quality dental hygiene care. Boyer, et al., 216.
DEMOGRAPHIC CHARACTERISTICS
Carpal tunnel syndrome: Risk factors and preventive strategies for the dental hygienist. Gerwatowski, et al., 89.
Dental hygienists
Dental hygiene students' and practitioners' resolution of professional issues. Newell, 34.
Faculty openings and recruitment in dental hygiene education. Keevil, 254.
DENTAL HYGIENE CAREERS
Employee/employer relations
Career commitment and satisfaction among American and Canadian dental hygienists. Johnston, et al., 210.
Reasons for changing employment positions among practicing North Carolina dental hygienists. Bader, et al., 27.
Sexual harassment within dental offices in Washington state. Garvin, et al., 178.
Employment benefits
Career commitment and satisfaction among American and Canadian dental hygienists. Johnston, et al., 210.
Reasons for changing employment positions among practicing North Carolina dental hygienists. Bader, et al., 27.
Employment rates
Reasons for changing employment positions among practicing North Carolina dental hygienists. Bader, et al., 27.
Employment settings
Faculty openings and recruitment in dental hygiene education. Keevil, 254.
Job satisfaction
Career commitment and satisfaction among American and Canadian dental hygienists. Johnston, et al., 210.
Reasons for changing employment positions among practicing North Carolina dental hygienists. Bader, et al., 27.
Sexual harassment within dental offices in Washington state. Garvin, et al., 178.
Recruitment
Factors influencing the selection of dental hygiene as a

profession. Wassel, et al., 81.
Faculty openings and recruitment in dental hygiene education. Keevil, 254.

Stress

Sexual harassment within dental offices in Washington state. Garvin, et al., 178.
A short-term epidemiological study of median nerve dysfunction in practicing dental hygienists. Conrad JC, et al., 76.

DENTAL HYGIENE EDUCATION

A national survey of outcomes assessment in dental hygiene programs. Smith, 68.

Admission/recruitment

Dental hygiene recruitment and retention: Marketing to the female adult reentry student. Thomson-Lakey, et al., 417.
Factors influencing the selection of dental hygiene as a profession. Wassel, et al., 81.

Curriculum

Dental hygiene recruitment and retention: Marketing to the female adult reentry student. Thomson-Lakey, et al., 417.
Dental hygiene students' and practitioners' resolution of professional issues. Newell, 34.
A national survey of outcomes assessment in dental hygiene programs. Smith, 68.

Faculty

Faculty openings and recruitment in dental hygiene education. Keevil, 254.

Outcome assessment

A national survey of outcomes assessment in dental hygiene programs. Smith, 68.

Programs

A national survey of outcomes assessment in dental hygiene programs. Smith, 68.

Undergraduate

Dental hygiene recruitment and retention: Marketing to the female adult reentry student. Thomson-Lakey, et al., 417.

Students

Dental hygiene recruitment and retention: Marketing to the female adult reentry student. Thomson-Lakey, et al., 417.
Dental hygiene students' and practitioners' resolution of professional issues. Newell, 34.
Factors influencing the selection of dental hygiene as a profession. Wassel, et al., 81.

ETHICS

Dental hygiene students' and practitioners' resolution of professional issues. Newell, 34.

ETIOLOGY ORAL DISEASES

Calculus

Task analysis of the ODU 11/12 explorer. Huennekens, et al., 24.

Other

So your patient is taking . . . a calcium channel blocker (CCB)! Requa-Clark, 369.

Tobacco

An effective smokeless tobacco intervention for dental hygiene patients. Little, et al., 185.

INFECTION CONTROL

OSHA issues final rule on occupational exposure to bloodborne pathogens. Special feature, 124.

INSTRUMENTATION

Operator/patient positioning

Postural changes in dental hygienists: Four-year longitudinal study. Barry, et al., 147.

Selection

Aerosol generation by two ultrasonic scalers and one sonic scaler: A comparative study. Gross, et al., 314.
Carpal tunnel syndrome: Risk factors and preventive strategies for the dental hygienist. Gerwatowski, et al., 89.
Task analysis of the ODU 11/12 explorer. Huennekens, et al., 24.

Technique

Carpal tunnel syndrome: Risk factors and preventive strategies for the dental hygienist. Gerwatowski, et al., 89.
Task analysis of the ODU 11/12 explorer. Huennekens, et al., 24.

LEGISLATIVE/JURISPRUDENCE

Licensing

The effectiveness of a continuing education course in local anesthesia for dental hygienists. Cross-Poline, et al., 130.

Supervision

Sexual harassment within dental offices in Washington state. Garvin, et al., 178.

OCCUPATIONAL HAZARDS

Carpal tunnel syndrome: Risk factors and preventive strategies for the dental hygienist. Gerwatowski, et al., 89.

Other

Aerosol generation by two ultrasonic scalers and one sonic scaler: A comparative study. Gross, et al., 314.
Carpal tunnel syndrome: Risk factors and preventive strategies for the dental hygienist. Gerwatowski, et al., 89.
Postural changes in dental hygienists: Four-year longitudinal study. Barry, et al., 147.
Sexual harassment within dental offices in Washington state. Garvin, et al., 178.
A short-term epidemiological study of median nerve dysfunction in practicing dental hygienists. Conrad JC, et al., 76.

ORAL HEALTH

Education

Special population group

Employment and utilization of dental hygienists in Minnesota healthcare facilities. Ostapenko, 404.

PATIENT

Evaluating oral lesions: A systematic approach with exercises. Williamson, et al., 264.

Compliance

Monitoring blood pressure: Five minutes critical to quality patient care. Cline, et. al., 363.

Management

Corticosteroids and the dental patient: A review of the literature. Brown, 220.
Evaluating oral lesions: A systematic approach with exercises. Williamson, et al., 264.

PERIODONTAL DISEASE

Etiology

Periodontal disease and diabetes mellitus. Zachariasen, 259.

Incidence

Periodontal disease and diabetes mellitus. Zachariasen, 259.

PROFESSION

Clinical dental hygienists' perceptions of quality dental hygiene care. Boyer, et al., 216.
Use, need, and desire for pain control procedures by Iowa hygienists. Sisty-LePeau, et al., 137.

Association business

Report of the executive director. Bell, 162.
Report of the president. Woodward, 160.

Attitudes

Reasons for changing employment positions among practicing North Carolina dental hygienists. Bader, et al., 27.

Dental hygienists

Clinical dental hygienists' perceptions of quality dental hygiene care. Boyer, et al., 216.

Future

A short-term epidemiological study of median nerve dysfunction in practicing dental hygienists. Conrad JC, et al., 76.

PUBLIC SERVICE

Screening

An effective smokeless tobacco intervention for dental hygiene patients. Little, et al., 185.

Oral cancer

An effective smokeless tobacco intervention for dental hygiene patients. Little, et al., 185.
